

Design Electrical Engineer

[Apply Now](#)

Company: MYTILINEOS

Location: Thessaloniki

Category: architecture-and-engineering

At **MYTILINEOS**, we are catalysts for a sustainable future, leading the green energy transition with innovative solutions while being a reference point for competitive green metallurgy. Our global presence covers two business Sectors: Energy and Metallurgy. With a consolidated yearly turnover of €6.3 billion and a workforce of over 5,500 dedicated individuals, we fuel success through cutting-edge technology and diverse talent.

We are committed to embracing new state-of-the-art technologies and advancements, propelling us towards a cleaner, brighter tomorrow. Our positive footprint extends across five continents, leaving a lasting impact. At MYTILINEOS, we foster a culture of **resilience**, **challenge**, **respect**, **excellence**, and **change** empowering our diverse workforce to achieve remarkable outcomes.

We are currently looking for **Design Electrical Engineer** to join our **Design** team in our Thessaloniki Offices.

Your role will encompass:

Responsible for designing and developing electrical systems for HV/MV/LV power distribution and control, including substations, switchgear, transformers, and related equipment

Collaborate with clients, stakeholders, and cross-functional teams to comprehend project requirements and technical specifications

Utilize specialized software like AutoCAD, ETAP, or similar tools to create detailed electrical schematics, single-line diagrams, wiring diagrams, and layouts

Select suitable electrical components, such as circuit breakers, relays, protection devices, cables, and busbars, ensuring adherence to project specifications, industry standards, and safety regulations

Conduct load flow analysis, short-circuit studies, and coordination studies to optimize the electrical system design and ensure proper protection coordination

Perform calculations and simulations to assess voltage drop, fault current levels, harmonic distortion, and other relevant electrical parameters

What you bring to the role:

Holds a University Degree in Electrical Engineering

Capable of working effectively under tight deadlines

Previous experience as a member or leader of an electrical design team will be advantageous

Demonstrates excellent proficiency in the English language

Possesses strong knowledge of MS Office and at least one dedicated Electrical Software Package (e.g., EPLAN, ETAP, Simaris, PSS/E, DIgSILENT, EMTP, Primtech, Autocad, or Revit)

Skilled at achieving management-set goals, guiding available personnel and resources

Exhibits outstanding communication, leadership, and negotiation skills

Your Benefits:

Competitive remuneration package

Cooperation, creativity and innovation: we adopt flexible cooperation models to achieve fast results and increased productivity

Follow us on and stay updated on our latest news

We respect your personal data. All personal information in your application and CV will remain strictly confidential.

At MYTILINEOS we are proud to have Diversity and Inclusion at the centre of everything we do. We are committed to Equal Employment Opportunity regardless of race, colour, national origin, ethnicity, gender, age, disability, sexual orientation, gender identity or religion.
