Athens Technology Center seeks for a Frontend Developer (Athens/Thessaloniki)

About us

ATC is an Information Technology Company offering solutions and services targeting specific sectors incl. the Media, Banking, Retail Sectors, Utilities and Public Sector Organisations. As a full-service software development company, we apply modern design principles, along with the latest data science, machine learning, cloud, mobile and desktop technologies. We strive to deliver quality software solutions for top clients and global leaders in numerous industries, while at the same time being at the forefront of research and innovation.

The position

ATC is looking for a **Frontend Developer** to join our iLab (R&D) Unit. You will work together with experienced developers to add value to ATC's line of projects and products. You will follow all steps of deployment, from design and implementation to testing and deployment. The role includes a strong cooperation with other developers and product owners internationally. You will join a highly collaborative, cross-functional team, working as part of an agile development process, which regularly releases new software.

Key responsibilities

Design, build and maintain applications

Ensure the performance, quality, and responsiveness of applications

Help maintain code quality, organization and test automation

Identify and correct bottlenecks and fix bugs

Perform application design activities (e.g., designing user interface, usability testing)

Collaborate with back-end developers and web designers to improve usability

Qualifications

University Degree in Computer Science, Information Technology or equivalent

At least 1 year professional experience

Demonstrable knowledge in Web Technologies

Proven experience in ReactJS

RESTful Web Services

Ability to read, write and communicate orally in English

Angular web framework is a plus

Benefits

Competitive compensation package

Private health coverage

Experience and knowledge in diverse scientific areas and the possibility to explore a variety of topics

Tailored training programme and access to cut-edge skills.

Working with international teams and world-class institutions and clients

Flexibility in working conditions (blend teleworking with office)

Friendly, pleasant and creative working environment
