Mobile Android/IOS Application Developer | Athens, Attica

Apply Now

Company: Entersoft

Location: Greece

Category: computer-and-mathematical

We are Entersoft Group of companies, a leading business software and services provider in South East Europe and the Middle East offering a comprehensive and integrated business software suite with ERP, CRM, Retail, WMS, Mobile, e-Commerce and B.I. applications.

Our **mission** is to provide constantly innovative and effective full range integrated Enterprise Applications along with high quality services and support our customers to ensure optimized efficiency. With more than 20 years of experience, 4.000 customers and 500 employees, we continuously invest in advanced technologies and professional development of our people to ensure maximum efficiency and long-term collaborations. We are expanding our Software Development team in Athens and we are looking for enthusiast professionals for the role **Mobile Android/IOS Application Developer**

About the Role:

You will assist in the design, development and maintenance of our software and you will be mainly responsible for:

Designing and developing high quality software solutions through well-documented, clean and reusable code

Identify performance bottlenecks and propose solutions, through debugging and performance/memory/SQL performance analysis.

Desired Skills & Experience:

BSc/MSc University degree in Computer Science or equivalent

2+ years of experience in mobile application development either with C#/Xamarin, .Net MAUI or Java and Kotlin

Development skills in Java, latest Android SDKs and knowledge of Android Studio

Experience with building apps with Flutter will be an asset

Hands on experience with Android APIs such as: Accelerometer, Camera, Local Storage, Google Maps, Location Services

Knowledge of Agile and Scrum methodology and practices in Product Development with an initial emphasis on Software Development solution

Solid understanding of the full mobile development lifecycle

Published application in Google Play will be an asset

Experience with object-oriented principles, design patterns and data structures are highly desired

Working experience with software delivery methodologies and source control management like Git, TFS or SVN

Fluency with English is required (both spoken and written)

Problem-solving skills and creativity

Accuracy and attention to detail

What we offer:

For the right talent that want to be part of our innovation-driven environment and high-performance culture, our offering includes:

Competitive remuneration package

Private health insurance plan

Free use of company bus

Training and development opportunities

A positive and supportive working environment

How to apply :

If you are interested in this career opportunity, then we are eager to get to know you! All applicants will be treated in strict confidence.

To apply for this role please send your CV at jobs@entersoft.gr.
