

## Project Design Engineer

[Apply Now](#)

Company: MYTILINEOS

Location: Athens

Category: architecture-and-engineering

At **MYTILINEOS**, we are catalysts for a sustainable future, leading the green energy transition with innovative solutions while being a reference point for competitive green metallurgy. Our global presence covers two business Sectors: Energy and Metallurgy. With a consolidated yearly turnover of €6.3 billion and a workforce of over 5,500 dedicated individuals, we fuel success through cutting-edge technology and diverse talent.

We are committed to embracing new state-of-the-art technologies and advancements, propelling us towards a cleaner, brighter tomorrow. Our positive footprint extends across five continents, leaving a lasting impact. At MYTILINEOS, we foster a culture of **resilience, challenge, respect, excellence, and change** empowering our diverse workforce to achieve remarkable outcomes.

We are currently seeking a highly skilled Project Design Engineer to join our engineering team in Athens or Thessaloniki.

As a Project Design Engineer, you will have the opportunity to utilize your expertise in lighting design principles, energy-efficient technologies, and project management to deliver innovative and sustainable lighting solutions.

### **Your role will encompass:**

Preparation of technical specifications in line with projects technical requirements

Development of technical studies

Development of drawings, schematics, cable lists, wiring diagrams

Drafting RfQs for equipment

Preparation of bills of materials

Evaluation of technical offers from suppliers

Technical review and coordination of the deliverable design documents from suppliers

Coordinate technical interfaces

Meetings with suppliers/customer abroad

Technical support to other company departments (sales, erection, commissioning, etc,)

Technical review of documentation prepared by the team members

In general, participation at every stage of a project or projects execution following the project(s) time schedule regarding the electrical design

Working with senior designers and project managers to provide excellent lighting design services to clients

### **What you bring to the role:**

University degree in Electrical Engineering

2+ years of Lighting Design experience

Proficient working knowledge of AutoCAD and Dialux

Proficient working knowledge of Revit or AutoCAD MEP shall be considered an advantage

Good background in electrical systems, familiar with international and European standards

Experience of lighting design principles, lighting fixture, lighting plans, lighting schedules, and lighting specification package

Experience with general understanding of the requirements of electrical installations, circuitry, load, voltage and familiarity with electrical codes.

Experience in power plant EPC projects shall be considered an advantage.

High level of personal initiative and team spirit

Communication and collaboration skills, with the ability to work effectively in a team environment

Ability to manage multiple projects and meet tight deadlines

**Your benefits:**

Competitive remuneration package

Ticket Restaurant Card

Group Health Insurance program

Discount on the household electricity bill

Pension Plan

Cooperation, creativity and innovation: we adopt flexible cooperation models to achieve fast results and increased productivity
