

Senior Electronics Engineer with Analog Experience

[Apply Now](#)

Company: Chipright

Location: Greece

Category: other-general

Electronics Engineer job requirements: Chipright seeks highly motivated and an experienced Electronics engineer. This is a fantastic opportunity for talented engineers to work within a team of highly experienced engineers. Requirements

Minimum 5 + years of experience in electronics engineering and mixed signals processing design

Experience working in PCB design and experience in Altium software

Experience with low noise design

Experience with Analog Design, Embedded design, processor and memory selection, various communication protocols (especially USB, SPI, I2C and UART),

Demonstrated understanding of DFM and DFT

Experience in prototyping and debugging

Experience in functional verification and manufacturing support

Arm processing knowledge is a plus

Able to work as part of a team

Able to converse in English
