

## Senior Java Developer – Remote based Greece

[Apply Now](#)

Company: Chronos Consulting

Location: Greece

Category: computer-and-mathematical

### Job Description

Our client is a leading provider of mobile internet optimization solutions that help telecom operators to improve network efficiency, speed and optimize video traffic. They are looking for an Experienced Java Developer. This is a remote, home office based position.

The primary responsibility for the software developer will include system development of java (mainly) and C based core frameworks and functionality.

Successful candidates will be detail-oriented and a highly motivated self-starter capable of maintaining and developing Java and C code. The Software developer will work collaboratively with a team of developers in support of design, creation, maintenance, and testing of video transcoding applications and infrastructures.

Requirements:

BS degree preferred.

Develop and custom the software according to client requirements.

Software project support and maintenance.

Identify and resolve client concerns.

5-7 years of Java programming experience.

Knowledge in Java Version 1.8 or later and applicable design patterns.

Knowledge in C development

Knowledge in Multi-threaded environments is a must

Experience with Unix/POSIX compliant systems is a plus – advantage.

Familiarity with Tomcat, JUnit, RMI is an advantage

Ability to manage multiple issues simultaneously.

Networking knowledge is an advantage

Video Codecs, Containers and transport method knowledge is an advantage.

Exceptional communication skills and the ability to clearly articulate information (both verbal and written).
