

Senior Software Development Engineer - Full Stack

[Apply Now](#)

Company: Altair Engineering

Location: Greece

Category: computer-and-mathematical

Transforming the Future with the Convergence of Simulation and Data

Senior Software Development Engineer - Full Stack

Do you like a challenge, are you a complex thinker who likes to solve problems? If so, then you might be the new Altairian we are searching for. At Altair, your curiosity matters. We pride ourselves on a business culture that enables open, creative thinking, and we deeply value our employees and their contributions towards our clients' success, as well as our own.

What You Will Do:

Design, develop and maintain product features

Collaborate with leads to translate requirements to functional designs

Collaborate with release team to plan and prioritize tasks, escalation and risk mitigation

Writing clean, maintainable, thoroughly tested, and shippable production code

Perform code reviews

Adhere to defined development process

What You Will Need:

Basics:

Minimum 6 years of product development experience creating enterprise scale web applications using tools and technologies below

React, Typescript Expertise

Python Expertise

Strong Object oriented design skills

Preferred:

Java/SpringBoot Expertise

Experience with any of ArangoDB, PostGresQL, MongoDB.

Tools - gradle, npm, webpack, skaffold, jib, helm, docker, k8s, git, jira, Jenkins.

Understanding of the PLM system (Part, BOM, Design data management) would be a value add

How You Will Be Successful:

- Envision the Future
- Communicate Honestly and Broadly
- Seek Technology and Business “Firsts”
- Embrace Diversity and Take Risks

What We Offer:

- Life & Health Insurance
- Pension Plan
- Yearly Checkups
- Flexible Working Hours
- Remote Work Opportunities (WFH)
- Competitive Salary
- Employee Referral Program
- Employee Stock Purchase Program (ESPP)
- Employee Referral Program
- Lunch Vouchers
- Outdoor Activities

Why work with Us:

Altair is a global technology company providing software and cloud solutions in the areas of product development, high-performance computing (HPC) and artificial intelligence (AI).

Altair enables organizations in nearly every industry to compete more effectively in a connected world, while creating a more sustainable future. With more than 3,000 engineers, scientists, and creative thinkers in 25 countries, we help solve our customer's toughest challenges and deliver unparalleled service, helping the innovators innovate, drive better decisions, and turn today's problems into tomorrow's opportunities.

Our vision is to transform customer decision making with data analytics, simulation, and high-performance computing and artificial intelligence (AI).

For more than 30 years, we have been helping our customers integrate electronics and controls with mechanical design to expand product value, develop AI, simulation, and data-driven digital twins to drive better decisions, and deliver advanced HPC and cloud solutions to support unlimited idea exploration. To learn more, please visit altair.com.

Ready to go? #ONLYFORWARD At our core we are explorers; adventurers; pioneers.

We are the brains behind some of the world's most revolutionary innovations and are not only comfortable in new and uncharted waters, we dive in headfirst. We are the original trailblazers that make the impossible possible, discovering new solutions to our customer's toughest challenges.

Altair is an equal opportunity employer. Our backgrounds are diverse, and every member of our global team is critical to our success. Altair's history demonstrates a belief that empowering each individual authentic voice reinforces a culture that thrives because of the uniqueness among our team.
