

UG Mine Planning & Design Engineer

[Apply Now](#)

Company: Hellas Gold S.A.

Location: Καλύβες Πολυγύρου Χαλκιδικής

Category: architecture-and-engineering

Hellas Gold Single Member S.A. is a gold, silver, lead and zinc mining company headquartered in Athens, Greece. Since 2004, Hellas Gold operates the Kassandra Mines at N.E. Chalkidiki, under the strictest EU safety and environmental standards and regulations. The Kassandra Mines consist of the operating mine at Olympias the state-of-the-art Kokkinolakkas Tailings Managements Facility and the Skouries project. Evolving a mining history of 25 centuries, Hellas Gold invests in the development of sustainable mining in the region, contributing to the local economic growth and prosperity with investments of more than \$1 billion, the employment of 1,600 people, the active support to the local suppliers, and important investments to local community initiatives and projects. Since 2012, Hellas Gold operates as a subsidiary of the Canadian-based Eldorado Gold Corporation, which has over 25 years of experience in exploration, construction and operation of mines around the world.

We live our values in pursuit of our purpose: to find a better way to do things. We aim to break new ground in all that we do. We do this by creating a positive impact today, and for future generations, through our commitment to operating safely, sustainably, and profitably.

The company offers the opportunity to those who wish to express interest in the position of **UG Mine Planning & Design Engineer** premises in Chalkidiki. The position will be reported to the Technical Services Manager of the Technical department in Skouries.

Main Responsibilities:

- Detailed short-term layouts including the required infrastructure from mid-term plans

- Development of weekly tactical plans, communicating these mine schedules and plans to all stakeholders, and ensuring they are executed.
- Liaising with geology, mine operations, and other technical services groups to ensure the tactical plan targets can be achieved and the appropriate designs are created.
- Updating and maintaining 3D CAD model of weekly plans, designs, and service requirements.
- Developing and maintaining a database for the key services such as water management systems and electrical distribution systems.
- Optimization of production through mine designs and production scheduling.
- Reconciliation of plan compliance and stopes performances.
- Provide operational and technical support through mine plan and schedule, design and implementation.
- Identify new or alternate ideas and concepts that can be used to improve the business.
- Filling-in med-term planning and other duties as required, and ad-hoc projects.

Requirements:

- Degree in Mining & Metallurgical Engineering or in Mineral Resources Engineering or in related field.
- A post graduate degree would be considered as an asset.
- At least 2 years of experience in mine planning, design &/or mining for an underground mine operation.
- Excellent verbal and written communication skills in both Greek and English languages.
- Proficient computer knowledge of MS Office, Deswik and Autodesk Packages.
- Excellent organizational and decision-making skills.
- Problem solving skills and perform under pressure and deadlines.
- Driving License.

Our company offers a competitive remuneration package that includes an attractive combination of basic salary and benefits, as well as opportunities for development in a challenging work environment.

Inclusion and Diversity

Hellas Gold is an equal opportunities employer. We are committed to promoting an inclusive and diverse workplace where we value and respect every colleague for who they are and provide equality of opportunity so that everyone can fulfill their potential.

If you are looking for a global and dynamic environment, please send us your CV.
